WRITING HISTORY SINCE 1997

GROTTO was established in 1997 as a small family bakery. Over the years, GROTTO's products became widespread both on domestic and foreign markets. Nowadays, GROTTO is a modern facility, meeting the highest hygienic standards – which are validated frequently by certification audits, government inspections and daily quality checkups. Furthermore, the workplace is being sanitized on an hourly basis providing the perfect environment for a clean and safe food production. The modernization of our equipment has allowed the production to be increased and well regulated.
